

## SIMATS - GRADUATION EMPLOYMENT RATE

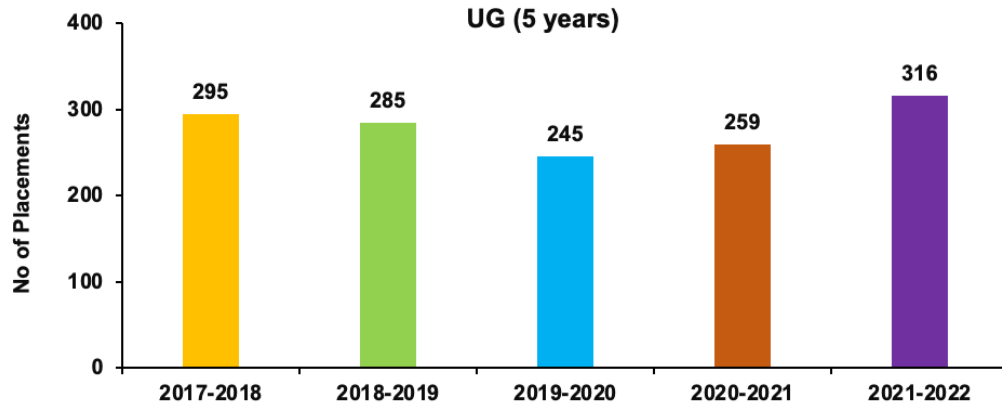

Saveetha Institute of Medical and Technical Sciences (SIMATS) is a premier institute that provides students with intense training and job opportunities in the field of medical and technical sciences. The institute is committed to provide its students with the best placement opportunities, and its efforts have resulted in a successful track record of student placements. The institute's focus on providing placement opportunities to its students has led to a high placement rate, with more than 90% of the students getting placed in top companies. This has helped the students in building a strong foundation for their careers and establishing themselves in their chosen fields. The training programs offered at SIMATS are designed to meet the latest industry standards and provide students with hands-on experience in their field of study. This makes them well-equipped and ready to take on any challenges that come their way in their professional careers. The graduation employment rate in SIMATS has shown a significant increase in the last 5 years, with students being placed in top companies like Cognizant, Accenture, Capgemini and TCS. With its strong industry connections, commitment to student success and state-of-the-art infrastructure, it is the perfect place for students to launch their careers and reach their full potential.
